Supporting Our Team Through Critical Care Needs

The Employee Crisis Fund provides financial support for our employees during life’s most challenging moments. Because of our employee’s generosity, we were recently able to provide financial assistance to help a team member access specialized medical care outside of our region. Funding was provided to help offset travel and lodging expenses, reducing the financial burden and allowing the employee to focus on their health.

Access to specialized care can be critical in complex medical cases, and support like this helps remove barriers that might otherwise delay or prevent necessary treatment. By assisting with these expenses, we are helping ensure our employees receive the care they need while also supporting their ability to recover and, when possible, return to work.

This effort reflects BCH’s ongoing commitment to compassion, teamwork, and investing in the well-being of those who make our mission possible every day.
